VI. RECOGNITIONS AND PRESENTATIONS

A. Swearing In of Acting Fire Chief Andrew Larson
as Fire Chief

Chief Larson will become the 6h Fire Chief of Arlington Heights. President Hayes enumerated Mr. Larson's many qualifying characteristics and career accomplishments.

President Hayes administered the Oath of Office to Mr. Larson. Mr. Larson thanked the Board, the Village Manager, the Assistant Village Manager and his coworkers.

VII. PUBLIC HEARINGS

VIII. CITIZENS TO BE HEARD

Resident Dawn Hedrick, said the HelpUSATroops organization is collecting items for overseas troops. There will be a sorting day April 6th at the Amvets in Wheeling on McHenry Road. Please donate or come and help

sort. They are trying to send 1000 care packages. The collections boxes are around the community and a shopping list is available at www.helpusatroops.com.

President Hayes and Trustee Padovani thanked the Hendricks and said how valuable this offering is.

Resident Debra Bolash thanked the Village staff for working with St. James on a solution to the timing in eliminating parking on Arlington Heights Road. They can better reach their audience by delaying the enforcement to April 22.

Resident Melissa Cayer asked how the pension limit is calculated for property tax billing. Mr. Kuehne explained the pension amounts are based on the recommended amounts calculated by an outside actuary. There are limits to the calculation. It is looked at through 2040 and allocated through all those years. Fluctuations in investment years create differences in the annual taxed amounts. Ms. Cayer asked why the Social Security Administration does not keep track of marriages.

XI. APPROVAL OF BIDS

XII. NEW BUSINESS

- A. 7-Eleven Gas Station - 1650 W. Algonquin Rd. - Approved
PC#18-026
Special Use Permit for Auto Service (Gas)
Station, Variation

A new 7-11 store with a gas station is being proposed on Algonquin Road. The proposal was unanimously recommended by the Plan Commission. The

property was annexed into the Village as a gas station in the 1970's and the former gas station was recently torn down. An improved access traffic flow was accomplished by reducing the number of curb cuts from what was there previously. A 6' fence and evergreen hedges will be on the north side of the site. The Village is working with IDOT and the City of Rolling Meadows to add a right hand turn lane on Algonquin which would take away 8-10 feet of parkway. To accommodate this lane, the developer has pushed the landscaping further north. The developer will try to relocate the two trees originally planned for Algonquin Road where the right turn lane is proposed. The plan exceeds the parking space requirements.

There was concern that the right in/right out access on New Wilke could be dangerous so staff proposed a condition that would grant the Village authority to limit access in the future. The petitioner initially had concerns about this limit, but after a language revision, they are now okay with the condition.

There will be 10 feet between the building and fence at the rear of the property. The land to the north is controlled by the grocery store to the east, and is used for detention.

Concern was expressed that there is not much room for snow removal on site as there is not a lot of green space. Ivan Nockov of Vequity said the 7-11 franchisee would not want to block their customer's spaces, as that would be bad for business. There is also an excess of 7 parking spaces so they could use some of it for snow. There will be a strict lease with 7-11 corporate, so he didn't see a problem. It was suggested that the ordinance could contain language regarding snow removal. Staff responded that a directive on snow removal would be hard to enforce, and there would be many variables. It would be difficult to apply a set of standards on this site and not on others. Each site has challenges, but these kinds of challenges are not governed by Code. It was noted that if all seven of the surplus parking spaces were used for snow storage, the project would still meet code requirements for parking. The importance of the intersection not becoming gridlocked was stressed. The ingress/egress needs to work. Mr. Nockov said they want the site to be profitable and do not want gridlock either. The other 7-11 down the road will be closing.

Trustee Jim Tinaglia moved to approve the Special Use Permit with the recommendations from the Plan Commission with a modification of the first condition to read: If ingress/egress into and out of the subject property utilizing the access point along New Wilke Road becomes problematic, as determined by the Village, the petitioner shall work with the Village to address this problem. Should other strategies to address problematic access along New Wilke be unable to resolve the problem, the ultimate result will be for the petitioner to implement improvements to the ingress/egress along New Wilke Road that will restrict full access to and from the subject property. Trustee Greg Padovani Seconded the Motion. The Motion: Passed
