Jake,

Below is a summary:

- 4 people attended including myself and the building owner so we only had 2 residents.
- Questions asked
 - Do we have to use the back door, Answer yes as the front door does not have access to the building because it's a depressed loading dock.
 - How many cars will be going in and out of the building, Answer 15-20 per day during peak.
- Both residents were very positive and stated that they will be at the public meeting and will not object to us being in the building.

Regards,
